SPRING BAY SUICIDE AWARENESS NETWORK WINTER SOLSTICE SWIM 2022

The network's third annual winter solstice swim was held on Sunday June 19th at Raspins Beach, Orford. Registration was from 7.30am onwards with swimmers entering the water around 8am – just when the sun should have been rising over the hills. Sadly, it was a cloudy morning.

However, this in no way deterred any of the participants. It was good to hear the chatter, the banter and the laughter as Maria Voices musicians strummed away on their guitars.

After a warm-up on the beach by Hallee of Maria Coast Fitness, it was run and jump into the ocean. What joy! Seriously, there was not one person who said that they regretted doing the swim. There was much planning about what they would wear and do next year.

So then, we could all relax and be serenaded by the Maria Coast Voices choir. The gas heaters kept everyone warm and the smell of the barbecue was most welcome.

This event brings together a love of our local area, nature, camaraderie and a tiny bit of pushing our own personal boundaries - all for a great cause.

We hope to see you there next year!!!

BURN BRIGHTER THIS WINTER

Tasmanians are being encouraged to 'Burn Brighter this Winter' to reduce wood smoke pollution.

Wood heaters are a common and efficient way to warm homes and keep well in winter. Often wood heater owners burn wood overnight to keep homes warm and this can often result in visible smoke around many towns and suburbs across Tasmania. To reduce smoke emissions, the Environment Protection Authority (EPA) and Councils are encouraging residents to burn wood with a flame (Burn Brighter) when

loading in new wood, rather than loading wood and shutting down the air intake straight away – which results in higher smoke emissions.

Dr John Innis from the EPA says air quality monitoring undertaken across Tasmania shows that there is poor air quality in several locations during the winter months. 'On still winter days and nights, smoke tends to linger and build up around towns and suburbs, which is unpleasant, can be a nuisance and can also have negative consequences on our health.

Dr Innis says the amount of smoke coming from a wood heater is dependent on the age and type of heater, but also on how it is operated. The good news is that we can burn wood in a way that creates less smoke.'

'To reduce smoke, make sure you always burn with a flame (don't let your fire smoulder); after reloading, open the air control and burn your fire on high for 20 minutes, especially before retiring for the night; only burn dry, seasoned wood; and make sure the flue is clean', Dr Innis says.

'If you can, go outside every once in a while and check how much smoke is coming from your chimney. If it is regularly producing a lot of smoke even with good operation you may need to have your heater checked or the flue cleaned'.

The EPA's annual 'Burn Brighter this Winter' campaign, now in its fifth year provides easy-to-follow advice about how wood heaters can be operated to reduce smoke emissions.

For further information about smoke levels in your area, smoke alerts and health advice for people affected by wood smoke visit <https://www.dhhs.tas.gov.au/publichealth/alerts/air/>

More information about how to use your wood heater responsibly and reduce smoke pollution can be found on the EPA website at www.epa.tas.gov.au/burn-brighter

SURVEY CONTINUES

The helicopter based in Swansea from May until June is still hard at work conducting a low level Airborne survey for Geoscience Australia and Mineral Resources Tasmania.

The survey should be almost completed as mid June was the original posted time for it to finish.

Story & Pics by Rob Gaspari

BARKING DOGS

The prevalence of barking dogs has increased quite substantially over the past few years with the increase in newcomers to the area. Even in areas where large blocks are the norm, barking dogs are still a problem.

In what were normally quiet areas, the sound of barking carries long distances as there is little background noise to deaden the yelping,

Is it a problem? It can be considered a breach of the Glamorgan Spring Bay Dog Management Policy 2014-2019* if your dog's barking unreasonably interferes with the peace, comfort or convenience of any person or persons.

The Code of Responsible Dog Ownership identifies, amongst other points, that it is the responsibility of every dog owner to:

- **Take all reasonable steps to ensure that the dog does not cause a nuisance, injure, endanger, intimidate, or otherwise cause distress to any person.**

In light of this although barking is normal it can become a problem if it occurs often and for extended periods of time or occurs at inappropriate times such as during the night or early in the morning.

You may not even realise that your dog barking is causing a problem to other people. The Council can spend a large amount of time dealing with problems caused by excessive barking by dogs.

It is much easier to resolve these issues quickly and avoid fines and legal proceedings which are costly, time consuming and does not always end up happily for the dog or the owners.

There are many different ways to prevent dog barking and it is good to work together with your neighbours and the Council to help each other and your dog's live happily together.

The Act

If the complaint is found to be genuine the Council may institute proceedings for an offence under Section 46 of the Dog Control Act 2000.

The owner or person in charge of a dog must not permit the dog to become or create a nuisance. A dog is a nuisance if:

- it behaves in a manner that is injurious or dangerous to the health of any person; or
- it creates a noise, by barking or otherwise, that persistently occurs or continues to such an extent that it unreasonably interferes with the peace, comfort or convenience of any person in any premises or public place.

* The Glamorgan Spring Bay Dog Management Policy 2014-2019 can be found at www.gsbc.tas.gov.au

Please note that electric or citronella collars, yelling or punishing your dogs for barking are no longer considered to be best practice. If you would like advice and support in managing your dogs barking please contact the Animal Control Department of Council on 6256 4777 or email info@freycinet.tas.gov.au

Results supplied by Kathy Dance (sec)

Questions

1. What is the longest club in a golf set?
2. Where did golf originate?
3. Which of the following is *not* a golf club: putter, copper, driver, iron, wood?
4. What is the difference between a birdie and a bogey?
5. What are the four major golf championships?

- Answers
1. The driver. Most drivers are at least 45 inches long.
 2. Scotland, although it is thought that older antecedents of the game existed in other places including China and Persia.
 3. Copper
 4. A birdie is one under par on a hole, whereas a bogey is one over par on a hole.
 5. Masters Tournament, US Open, The Open Championship (UK), and the PGA Championship
