HOBART PLACED ON STAGE 1 WATER RESTRICTIONS? WHAT THE?

The greater Hobart area will be placed on stage 1 water restrictions from 14 December 2021 to help maintain supply to the city and its immediate surrounding areas over the summer holiday period.

TasWater Asset Management Services General Manager, Matt Derbyshire said the impact of months of heavy rain on water quality, along with essential maintenance, has resulted in the need to enter into stage 1 water restrictions.

"These restrictions are based on advice from our engineers, scientists and field operators who monitor our systems across the state," he said.

"Their aim is to protect drinking water supplies which have become more difficult to treat following recent heavy rainfall causing sediment and debris to run into our rivers."

Stage 1 water restrictions require only small changes to how people use water, but even small changes can have a significant impact on the amount of water available in the system.

"Many factors were considered before implementing restrictions for the Hobart area, including the increased demand on the water supply during the summer period and the continued impacts of La Niña weather conditions, leading to a predicted wetter than average summer," Mr Derbyshire said.

"We are expecting continued wet weather over the coming months, which will continue to impact on the water treatment process.

"Implementing these restrictions will help

us ensure water is available when residents, visitors and businesses turn on their taps."

Stage 1 restrictions aim to reduce non-essential water use by 20 per cent by encouraging more conscious use of water at home, outside, and at work.

"We thank the community for their anticipated cooperation to reduce water use and encourage all Tasmanians to consider their water use, as it is a precious and finite resource," Mr Derbyshire said.

"TasWater is working on water surety improvements for the greater Hobart drinking water supply to increase the capacity of the system into the future, including the Bryn Estyn Water Treatment Plant upgrade."

"We encourage Hobart locals to spread the word on water conservation and its importance to people visiting the area."

Media Release

INFORMATION RESULTING FROM A QUESTION ON NOTICE AT THE NOVEMBER COUNCIL MEETING SO IT IS IN THE PUBLIC DOMAIN AND INTEREST.

Walking past the Swansea "Loo with a view" I wondered why the 5 white Christmas kangaroos on the walkway looked so angry? it struck me that they must have just opened their Council rates For those of you concerned about the increase in your rates - " Wait there's more

Council have reluctantly released your estimated rates for the next financial year - see below. Open your Rates notice and check the AAV for your property. Look at

the chart below and see where you fit in and how much extra you will pay next year - on top of the extra you are already paying this year.

The following year will see another rise and don't forget the Valuer General is re-valuing our properties in the near future. AAV is directly linked to property value and we all know how much the sale prices have increased.

Merry Christmas , Greg Luck -Swansea

Agenda Item 3.3 - Attachment 2

We cannot compare with future years as the rates for next 5 years are unknown at this stage. There are many variables that will impact the actual rates charges such as, natural growth, Valuer General property valuations and how Council determines and sets the rates annually each year. The Long Term Financial Management Plan includes a forecast of total rate revenue required only, not actual rates charges that will apply to individual properties. This is only a guide and is also reviewed every year to take into account movement in internal and external factors that impact the budget and long term forecast. Council will provide more information to the community in relation to the Long Term Financial Management Plan review and likely impact on rates forecast in due course.

WHAT'S SO FUNNY?

Two little boys were known troublemakers, stealing everything they could get their hands, even from the church. One day a priest stopped one of the boys and asked, "Where is God?" The boy shrugged and the priest repeated, "Where is God?" The boy ran out of the cathedral crying to his home where he hid in a closet. Eventually his brother found him and asked, "What's wrong?" The crying boy replied, "We're in trouble now! God is missing and they think we took him!"

A priest, a minister, and a rabbi want to see who's best at his job. So they each go into the woods, find a bear, and attempt to convert it. Later they get together. The priest begins: "When I found the bear, I read to him from the Catechism and sprinkled him with holy water. Next week is his first communion." "I found a bear by the stream," says the minister, "and preached God's holy word. The bear was so mesmerized that he let me baptize him." They both look down at the rabbi, who is lying on a gurney in a body cast. "Looking back," he says, "maybe I shouldn't have started with the circumcision."

Putts Ian Johnson 12.

Real golfers don't cry when they line up their fourth putt. Golf is a plague invented by the Calvinistic Scots as a punishment for man's sins.

The greatest liar in the world is the golfer who claims to play the game merely for exercise.

Billy was at school and the teacher asked all the children what their Father's did for a living. All the typical answers came out, Fireman, Policeman, Salesman, Chippy, etc. etc. but Billy was being uncharacteristically quiet, and so the teacher asked him about his Father. 'My Father is an stripper in a club and takes off all his clothes in front of other people'. The teacher quickly set the other children some work and took little Billy aside to ask if that was really true. 'No' said Billy 'he plays CRICKET for ENGLAND, but I was just too embarrassed to say'. The teacher looked sympathetic and hugged him, saying 'You poor thing'.
